A YOUNG man fond of dancing recently took a pedometer with him to a hall, and found that in the course of the evening he had covered thirteen and a half miles. The average length of a waltz was half a mile, of a polka three-quarters of a mile, of a gallop or schottische a mile, and of lancers a quarter of a mile. A girl usually dances more than a man, and is calculated to cover more than sixteen miles in a single evening.

And yet you will find most of the dear, sweet creatures to delicate to walk three blocks to the ball-room, and think you "awfully horrid" if you don't come in a carriage after her.

THE holiday season is fairly upon us—the feminine end of the family is planning its shopping and the male end is sitting up at nights figuring how to meet bills. And a word of advice to the ladies at this time may not be out of place. It is very concise: "Do your shopping early."

There is every reason for doing your Christmas buying during the next fortnight instead of waiting until the last week of the holiday season. You get the pick of the stocks—you are not likely to find, as you may when you go later, that the demand for certain articles has been so great that the supply laid in by the merchants has been exhausted and that you will have to buy something other than what you had set your heart upon.

Then you miss the football rush which characterizes the closing week: You can take your time, get courteous attention from the clerks and preserve your own dignity and good temper.

And above all, if you will take advantage of any pleasant days which we may have to do your shopping on, you will not invite pneumonia to claim you as a victim by running out of hot stores into the cold. By all means, do your shopping early in the season. It makes shopping what it should be to every woman—a pleasure and a delight.

THE President's message was read to the two Houses of the Fifty-ninth Congress Tuesday morning. It contains over twenty-two thousand words and you might say takes in the whole of creation. It is a characteristic Rooseveltian production. We give below the most important things he says he would do if he was the whole works: He

Would abolish the rebate.
Would admit Territories as two States.
Would give Alaska representation in Congress.
Would extend citizenship to residents of Porto Rico.
Would regulate life insurance business for the people's good.
Would make the navy far more effective than it is at present.
Would punish all those who handle in any way rebates and bribes.
Would fortify and perfect great improvements in island of Hawaii.
Would eliminate all immigration that brings undesirable foreigners.
Would welcome the betterment capital that bring to insular possessions.
Would give Indians more schools.
Would make Grand Canon and Niagara parks.
Would protect public forests and improve levees.
Would pension retired members of life-saving service.
Would have target practice and annual army maneuvers.
Would make impossible delays in process of civil and criminal law.
Would let no "pull" be left in any office in gift of civil service.
Would reduce number of needless volume printed at Government expense.
Would try to check increase of women engaged in various forms of industry.
Would endeavor always to give everybody a square deal—no more and no less.

Lacemaking a Washington Fad.

Lacemaking is to be a diversion of fashionable women in Washington this winter. Mrs. Roosevelt may be called the pioneer of this movement, though the wife of the French Ambassador, Mme. Jusserand, and several other women in the diplomatic corps have added to its popularity. When Mrs. Roosevelt receives the women of the cabinet circle for the weekly boudoir conference she works on a piece of filmy lace while important affairs of the next social season are discussed.

Deserting Their Employes.

Pittsburg telephone girls are deserting their employes because they find the constant wearing of a receiver produces ugly corns on the ear. They also say their sense of hearing is more strongly developed in the left ear than in the right. They do not mind this as much as they do the disfigurement, which betrays their occupation no matter how handsomely they are costumed.

AMUSEMENTS.

Edwin N. Hoyt gave a really fine impersonation of Hamlet last evening, says the Manistee Daily News, of date of Sept. 21, at Ramsdell, and the appreciation of the audience was manifested by curtain calls after nearly every act. Mr. Hoyt plays Hamlet in a sane, reasonable way, with a sharp distinction between the real Hamlet and the guise of madness assumed so suddenly in several scenes. His reading of the lines is quite perfect, and throughout the entire theatre, not a word was missed.

When Hoyt returns to Manistee, as it is hoped he may, he will face a crowded house. There is reason to believe that so sane and reasonable an interpretation of Shakespeare as he gives, with accent on the dramatic quality of the plays, would speedily result in a revolution on the stage ushering in better times that both the audiences and the profession desire.

—Henry W. Savage's elaborate production of "Woodland," will be the attraction at the Lexington Opera House on Wednesday, matinee and night. This is the most dainty and attractive production in the dress of comic opera which the modern stage has seen. When you go into "Woodland" with the birds, you get entirely away from this work-a-day world, and experience once more something of the joys of childhood, when fairies were realities. The music which Mr. Luders has written to accompany and illustrate Mr. Pixley's idyllic book, is characteristic and full of color. The melodies are suggestive of the feathered singers of the forest. There is plenty of fun in "Woodland," too, and not only do the quaint novel features of the opera sustain the comic pranks of the Jay-bird played by Horry Bulger, keeps the audience constantly laughing. New York, Boston and Chicago, in which three cities the piece ran for forty weeks, all gave it the most hearty endorsement. The production will be the same in Lexington as when seen on Broadway recently.

The reservation of seats for this event will commence on Monday, and all mail orders will receive attention.

Resolutions by D. of C.

At a meeting of Richard Hawes Chapter, United Daughters of the Confederacy, the following resolutions were passed:

The Richard Hawes Chapter extends to Judge Smith and the Fiscal Court, their hearty thanks and deep appreciation for their kind consideration and earnest support, which made it possible for the chapter to secure a furnished room in Bourbon county's beautiful new court house.

BE IT RESOLVED, That the chapter make this room attractive to every one. We are true and loyal American citizens and love the Stars and Stripes just as much as those who fought under the grand and glorious old banner, and yet it is with great pride that we endeavor to perpetuate the recollections of heroic deeds, and also to preserve the memory of the Confederate soldier, who with no reward in view, gallantly gave his all for a cause which he believed to be a just cause.

RESOLVED, That this room be adorned with pictures and relics of the Confederacy, with an anxious desire that the taxpayers of Bourbon county look upon this room as an ornament to the court house.

To this sanctum the Richard Hawes Chapter extends a cordial welcome to friends of both the Blue and the Gray.

Puts Them on the Defense.

At the opening session of Congress John Sharp Williams introduced several measures looking to a reduction of 20 per cent. of the present Dingley bill, by which action, as Mr. Williams expresses it, the majority is put on the defensive, thus giving the country an opportunity to see who are the actual reformers. Mr. Williams also introduced a bill looking to the imposition of an income tax.

Dying of Famine

is, in its torments, like dying of consumption. The progress of consumption, from the beginning to the very end, is a long torture, both to victim and friends. "When I had consumption in its first stage," writes Wm. Myers, of Cearfoss, Md., "after trying different medicines and a good doctor, in vain, I at last took Dr. King's New Discovery, which quickly and perfectly cured me. Prompt relief and sure cure for coughs, colds, sore throat, bronchitis, etc. Positively prevents pneumonia. Guaranteed at Oberdorfer's drug store. Price 50c and \$1 a bottle. Trial bottle free.

STOCK AND CROP.

—Kenney Bros., of near town, sold to the Continental 28,000 pounds of tobacco at 9 cents.

—J. T. Tate & Sons, of Shawhan, sold a four-year-old jack to Mr. A. G. Bush, of Fairland, I. T., for \$550.

—Geo. M. Brock, Jr., of Georgetown, purchased from John C. Noel the old Hillery M. Bedford farm, near Forks of Elkhorn, Franklin county, containing 235 acres, for about \$21,000.

—J. L. and V. K. Dodge sold their splendid two-year-old filly, Light-some, by Constantine-Burbon Light, by Bourbon Wilkes, to Ed. Benyon, acting as agent for an Eastern buyer, for \$8,000.

—At the sale of W. O. Butler Tuesday the following prices were realized: Calves, \$11 to \$14; cows, \$24 to \$42; 28 feeding cattle at \$3.30; horses, \$52 to \$96; one mule, \$141; hogs per head, \$8.40; farm implements low. A. T. Forsyth was auctioneer and S. H. Stivers clerk.

—An alfalfa pasture is probably the most sensible and cheapest preventive of hog cholera yet discovered, for it furnishes the pigs just what they need to balance up their rations all through the season. There is nothing better worth while trying than to see if it is not possible to secure a small field of alfalfa on every farm where the raising of hogs is made a business. The importance of this is fast being realized by the farmers in several States, and the crop when a proper soil is selected, and the crop put in as it should be, a large measure of success is being met with.

The Little Things.

From waste paper alone one railroad last year realized \$5,000.

Pins, pens, nails, old brooms, bottles, tin cans and worn-out machinery of all kinds are gathered up along the route by all railway companies and turned into money. Even the ashes are sold or utilized for improving the road bed.

These things seem small to command the attention of a rich railway company. But it must be remembered that the railway company is rich largely because it looks after the little things.

The greatest corporations in the world are not above taking care of the fractions of pennies.

The railway scrap heaps of the country last year reached the value of \$1,250,000—a most respectable sum of money, notwithstanding it came from picked up pins and paper, old nails and old brooms.

In Electric Bitters, however, I found a cure, and by them was restored to perfect health. I recommend this great tonic medicine to all with weak kidneys, liver or stomach." Still In Possession.

At a late hour Wednesday night Mrs. Ida Barry, of Spokane, Wash., was still in possession of the passenger coach in which she has been besieged since last Friday, when she assumed possession of it with armed violence.

Mrs. Barry was more rational Wednesday than at any time since her voluntary imprisonment in the car. Several persons entered the car and conversed with her, and her manner was mild, giving no evidence of her intention to harm anyone except that she always held her pistol and discouraged any attempt to take her by surprise. The woman was offered food, but she refused to eat it.

J. F. Barry, who keeps a grocery and saloon in Lexington thinks it possible that the woman at Girard, Kan., is his wife, from whom he was divorced a year ago. He is from Mt. Sterling, where he lived when he married. His wife was Sallie Bailey, of Lee county, Va., and she went to Indian Territory with her father, N. G. Bailey, three years ago.

LATER.—Mrs. Barry was captured yesterday. Ammonia was dashed into the narrow retreat and dazed her senses, dulled by privation. She is now in jail.

The New Revenue Bill.

Work of drafting the new bill governing revenue and taxation in Kentucky was started Tuesday by the Special Legislative Committee at Shelbyville.

Conspiracy Cases Passed.

The cases against former Revenue Agent A. M. Harrison and Ed. Oder, charged with criminal conspiracy in connection with the collection of back taxes in Clark county, which were set for trial in Winchester, Wednesday, were passed by Judge Benton until the latter part of the term, owing to the absence of several important witnesses for the Commonwealth.

It will be noticed that the names of Collector Roberts, of this district, and W. G. Dearing, of Flemingsburg, for Surveyorship of Louisville port, have been hold up, there being opposition to their appointment.

Raise Whisky Tax.

At Frankfort, Tuesday, the State Board of Valuation and Assessment fixed the tax value of whisky in warehouses at \$10 per barrel, of 25 per barrel, or 25 per cent. over last year and other recent years. The distillers will ask for a rehearing in the matter and endeavor to have the value reduced to the former figure.

No Secret About It.

It is no secret, that for Cuts, Burns, Ulcers, Fever Sores, Sore Eyes, Boils, etc., nothing is so effective as Bucklen's Arnica Salve. "It didn't take long to cure a bad sore I had, and it is all O. K. for sore eyes," writes D. L. Gregory, of Hope, Tex. 25c at Oberdorfer's drug store.
